

SECTION 1: CHEMICAL PRODUCT and COMPANY IDENTIFICATION

Catalog No.
L11459

Product Name: **Hexafluoroacetone, anhydrous, 97%**
Manufacturer/Supplier Name: Alfa Aesar - A Johnson Matthey Company
Address: 30 Bond St.
Ward Hill, MA 01835
Business Phone: 978-521-6300
Business Fax: 978-521-6350
For information
in North America, call: 978-521-6300

CHEMTREC Numbers:**For emergencies in the US, call CHEMTREC: 800-424-9300****For emergencies outside US, call INTERNATIONAL: (703)527-3887****For Nonemergency, call: (800)262-8200**[To Top of page](#)

SECTION 2 : COMPOSITION, INFORMATION ON INGREDIENTS

Catalog No. L11459

Chemical Name Hexafluoroacetone
CAS# 684-16-2
% Weight (Typical) 97

[To Top of page](#)

SECTION 3 : HAZARDS IDENTIFICATION

Catalog No. L11459

Emergency Overview: Toxic. Water reactive. Reproductive effects. Irritant.

Hexafluoroacetone:

Route of Exposure: Eyes. Skin. Inhalation. Ingestion.

Potential Health Effects:

Eye Contact: Causes eye irritation

Skin Contact: May be strongly Causes skin irritation.

Inhalation: Toxic by inhalation. Also strongly irritating to the respiratory tract.

Ingestion: Toxic by ingestion.

Target Organs: Eyes. Skin. Respiratory system. G.I. Tract. Reproductive System.

SECTION 4 : FIRST AID MEASURES

Catalog No. L11459

Eye Contact: Immediately flush eyes with plenty of water for at least 20 minutes. Assure adequate flushing of the eyes by separating the eyelids with fingers. Get immediate medical attention if irritation persists, or symptoms of overexposure become apparent.

Skin Contact: Immediately wash skin with plenty of water for at least 20 minutes, while removing contaminated clothing and shoes. Get medical attention especially, if irritation develops, persists, or symptoms of overexposure become apparent.

Inhalation: Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Keep warm. Get immediate medical attention.

Ingestion: If swallowed, call a physician or poison control center immediately. Never give anything by mouth to an unconscious person. Do not induce vomiting unless instructed by medical personnel. Get medical attention.

SECTION 5 : FIRE FIGHTING MEASURES

Catalog No. L11459

Flash Point:	No data
Extinguishing Media:	Use dry powder or carbon dioxide when fighting a fire involving this material.
Unsuitable Media:	Water extinguishers are not recommended.
Protective Equipment:	As in any fire, wear self-contained breathing apparatus pressure-demand, NIOSH (approved or equivalent) and full protective gear.

[To Top of page](#)

SECTION 6 : ACCIDENTAL RELEASE MEASURES

Catalog No. L11459

Personal Precautions:	Stay upwind of leak. Evacuate area until gas has dispersed. See also section 8.
Spill Cleanup Measures:	Clean up spills immediately, observing precautions in the Protective Equipment section. Shut off leak if it is safe to do so. Ventilate spill area and allow to evaporate. Evacuate area until gas has dispersed. Eliminate all sources of ignition. Do not expose spill to moisture or water. Refer to section 13 for disposal or reporting requirements.
Environmental Precautions:	Do not allow material to enter drains or streams.

SECTION 7 : HANDLING and STORAGE

Catalog No. L11459

Handling:	This product should be handled only by, or under the close supervision of, those properly qualified in the handling and use of potentially hazardous chemicals, who should take into account the fire, health and chemical hazard data. It should always be handled in an efficient fume hood or equivalent system. The user should consider that the toxicological and physiological properties of many compounds are not yet well determined and that new hazardous products may arise from reactions between chemicals. Care should be taken to prevent any chemical from coming into contact with the skin or eyes and from contaminating personal clothing.
Storage:	Store in a cool, dry, well ventilated area away from sources of heat and incompatible substances. Keep container tightly closed when not in use. Product is hygroscopic.
Hygiene Practices:	Wash thoroughly after handling. Avoid contact with eyes and skin. Avoid inhaling vapor or mist.

SECTION 8 : EXPOSURE CONTROLS, PERSONAL PROTECTIONCatalog No. L11459

Guideline Type:	NIOSH REL-TWA
Guideline Information:	0.1 ppm 0.7 mg/m ³
Guideline Type:	ACGIH TLV-TWA
Guideline Information:	0.1 ppm 0.68 mg/m ³

Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment.

Skin Protection Description: Wear suitable protective clothing to prevent contact with skin.

Hand Protection Description: Wear appropriate protective gloves. Consult glove manufacturers for glove permeability data.

Eye/Face Protection: Wear appropriate protective glasses or splash goggles as described by 29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.

Respiratory Protection: A NIOSH approved air-purifying respirator with an appropriate cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited to airborne concentrations that are typically within 10 times the exposure limit. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection. A respiratory protection program that meets OSHA's 29 CFR 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirators use.

Other Protective: Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

SECTION 9 : PHYSICAL and CHEMICAL PROPERTIESCatalog No. L11459

Physical State/Appearance:	Liquefied gas
Odor:	Musty
Flash Point:	No data
Boiling Point:	-27.4°C (-17.32°F)
Freezing Point:	-129°C (-200.2°F) (Ref:Sax)
Melting Point:	-129°C (-200.2°F)
Density:	1.32
Molecular Formula:	C ₃ F ₆ O
Molecular Weight:	166.02

[To Top of page](#)

SECTION 10 : STABILITY and REACTIVITYCatalog No. L11459

Conditions to Avoid: High temperatures, flames and sparks. Risk of explosion if heated strongly under confinement. Humidity.

Incompatibilities with Other Materials: Strong reducing agents. Strong bases. Alkali metals. Forms acidic hydrate in the presence of water.

Possible Decomposition Product: Carbon monoxide. Hydrogen fluoride.

SECTION 11 : TOXICOLOGICAL INFORMATIONCatalog No. L11459

Hexafluoroacetone :

RTECS Number:	UC2450000
Eye Effect:	No data reported in the cited references as of the revision date.
Skin Effects:	No data reported in the cited references as of the revision date.
Ingestion Effects:	Oral - rat LD50: 191 mg/kg (RTECS)
Inhalation Effects:	Inhalation - rat LC50: 275 ppm/3H (RTECS)
Teratogenicity:	Teratogenic effects. (RTECS)
Reproductive Toxicity:	Reproductive effects. (RTECS)

[To Top of page](#)

SECTION 12 : ECOLOGICAL INFORMATIONCatalog No. L11459

Ecotoxicity:	No information provided.
Bioaccumulation:	No information provided.
Biodegradation:	No information provided.
Environmental Stability:	No information provided.

SECTION 13 : DISPOSAL CONSIDERATIONSCatalog No. L11459

Waste Disposal:	Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the EPA and/or state and local guidelines, by a licensed disposal company.

SECTION 14 : TRANSPORT INFORMATIONCatalog No. L11459

DOT Shipping Name:	Hexafluoroacetone
DOT Hazard Class:	2.3
DOT Identification Number:	UN2420
DOT Subpart E Labeling Requirement:	2.3, 8

[To Top of page](#)

Hexafluoroacetone :

TSCA 8(b): Inventory Status: Listed on the TSCA inventory.

Risk Phrases: R14 Reacts violently with water.
R23/25 Toxic by inhalation and if swallowed.
R44 Risk of explosion if heated under confinement.
R36/37/38 Irritating to eyes, respiratory system and skin.

Safety Phrase: S23G Do not breathe gas
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S36/37/39 Wear suitable protective clothing, gloves and eye/face protection.
S45 In case of accident or if you feel unwell, seek medical advice immediately

SECTION 16 : ADDITIONAL INFORMATION

MSDS Preparation Date: January 1, 2002, Version 1

MSDS Revision Date: April 14, 2003.

MSDS Author: Actio Corporation.

Disclaimer:

This Health and Safety Information is correct to the best of our knowledge and belief at the date of its publication but we cannot accept liability for any loss, injury or damage which may result from its use. We shall ensure, so far as is reasonably practicable, that any revision of this Data Sheet is sent to all customers to whom we have directly supplied this substance, but must point out that it is the responsibility of any intermediate supplier to ensure that such revision is passed to the ultimate user. The information given in the Data Sheet is designed only as a guidance for safe handling, storage and the use of the substance. It is not a specification nor does it guarantee any specific properties. All chemicals should be handled only by competent personnel, within a controlled environment. Should further information be required, this can be obtained through the sales office whose address is at the top of this data sheet. We welcome any additional information about our products that customers have obtained by personal experience.
